

Shake It Up

Tyler Ward

Hey you do you remember me?
I used to call you friend
Like stars falling from the sea/scene
Of forever having faith

Have you forgotten?
Can you remember 17?
Back to when you help
To bring the sun down
It's getting back somehow

Take it up break it down again
start me up shake it up shake it up
Light it up turn around again
start me up shake it up shake it up

Hey you do you remember when
I felt like we could fly
Warm night of summer our my skin
The fire from the skies

Have we forgotten?
Can we remember 17?
Back to when you help
To bring the sun down
It's getting back somehow

Take it up break it down again
start me up shake it up shake it up
Light it up turn around again
start me up shake it up shake it up

Take it up break it *down* again
start me up shake it up shake it up
Light it up turn *around* again
start me up shake it up shake it up

Take it up break it down again

Light it up turn around again

Take it up break it down again
start me up shake it up shake it up
Light it up turn *around* again
start me up shake it up shake it up

Take it up break it down again
Woooooohh woooohhhh
Light it up turn around again
Woooooohh woooohhhh
