

Teenage Summer

Tyler Ward

Don't get it twisted, our playlist is mixed up
Tighter than a tight white tee
Yeah like a deck of cards shuffling A to Z
Country to rap, pop and everything in between

'Cause we were raised on
These real good feel good soul songs
Singing with the gas station shades on
New [?]
So come on, a-come on

This is a soundtrack to a teenage summer
Got ten weeks to do what we wanna
Every night is the best night ever
Time of our lives, no it don't get any better
Can't turn it up too loud
'Cause we love that sound
And we can't stop now
And these songs'll be glued to back of our mind
When we look back in time, gonna remember
Soundtrack to a teenage summer

Going in for the kiss, [?] on your lips
Leaving nothing left in between
Stealing the night like he owes it to you and me
A couple of crazy kids with fake IDs

And now we're taking it easy
[?] midnight [?] tease me
By letting me call you my baby, my baby
So come on, a-come on

This is a soundtrack to a teenage summer
Got ten weeks to do what we wanna
Every night is the best night ever
Time of our lives, no it don't get any better
Can't turn it up too loud
'Cause we love that sound
And we can't stop now
And these songs'll be glued to the back of our mind
When we look back in time, gonna remember
