

# Breathless

U.D.O.

It's totally wasted  
Let's bring it down  
This road is hectic  
I'd rather take my time

We're going faster than the world should be  
It's going out of control  
I'm sick of wasting energy  
I need to feed my soul

We got to stop at this station  
Jump off this ride  
It's all bad sensations  
Don't apologize

We are so breathless all the time  
So breathless  
Cos' we are restless in the mind  
We are so breathless all the time  
So breathless  
Cos' we are crazy in the mind  
Getting back the fire inside

Wasted and senseless  
Feet on the ground  
You just accept it  
Or do you wanna' drown

Like a bullet blowing up your head  
The price of being bad  
You better watch your lazy back  
Before it drives you mad

We got to stop at this station  
Jump off this ride  
It's all bad sensations  
Don't apologize

We are so breathless all the time  
So breathless  
Cos' we are restless in the mind  
We are so breathless all the time  
So breathless  
Cos' we are crazy in the mind  
Getting back the fire inside

How you gonna taste it  
When all you do is waste it  
It's all for you  
All for you  
How you gonna make it  
When all you do is break it  
It's all for you  
All for you

We are so breathless all the time  
So breathless

Cos' we are restless in the mind  
We are so breathless all the time  
So breathless  
Cos' we are crazy in the mind

We are so breathless all the time  
So breathless  
Cos' we are restless in the mind  
We are so breathless all the time  
So breathless  
Cos' we are crazy in the mind  
Getting back the fire inside
