Always on the run Where you are going, what you are doing Looking just for fun Love the twilight, love the dark

Rats -- are all around
And I am waiting for a head
Take what you want
And if you need it take it now
Guess it will be just alright

I''m living for tonite -- tonite
Living for tonite -- tonite

Working out my way
Find some ramp-rats, find some victims
Bad games all night long
We need to hid it just for fun

Games -- we shouldn''t play
And if you need some help -- just wait
I''m going out into the dark
Guess it will be just alright

I''m living for tonite -- tonite
Living for tonite -- tonite

Gimme your body
Take what you want
Can''t wait anymore

I''m living for tonite -- living for tonite
Tonite -- living for tonite
Tonite -- living for tonite
Tonite -- I''m living, living for tonite
