

## Midnight Highway

U.D.O.

Out I started, late tonight  
Blinded by the light  
Strangest feelin' I have known  
Don't know what's wrong or right  
See the people, clubs and bars  
Streetlife passin' by, yeah  
Screamin' engine, burnin' gas  
I'm on overdrive  
Danger, danger, save your soul  
The finger's writin' on the wall  
Where you are the angels are blind  
Midnight sky is bright and clear  
New moon on the right  
All at once, risin' haze  
The freeway is my life  
I'm on a high, spacin' out  
Where I'm goin' I don't care  
Can't you see, this is me  
An indestructible boy  
Danger, danger, save your soul  
The finger's writin' on the wall  
Where you are the angels are blind  
Midnight, and I cruise along the highway  
Midnight, and I'm all right on the highway  
I'm all right  
Midnight, and I cruise along the highway  
Midnight, and I'm all right on the highway  
Midnight, and I cruise along the highway  
Midnight, on a never ending highway
