

## Raise the Crown

U.D.O.

So tonight is something  
Something you can take  
Leave behind your sorrows  
Give yourself a break  
It's up to you - you're getting  
Pleasure outta strife  
You're gonna be somebody  
So get yourself alive  
So now it's one for all  
And all for one  
We run on overload  
So hold on tight  
There's a whole lotta runnin' - when we own this town  
And a whole lotta shoutin' - when we raise the crown  
There's a whole lotta runnin' - be it day or night  
So beware of the power - when it burns your eyes  
We are the one and only  
The only are insane  
Mentalised and tuned in  
Never be the same  
Paralytic decompression  
Needles in the bones  
It's the one obsession  
Going on and on  
Another crazy town - a crazy life  
We bleed our souls for you - run the rivers dry  
We quake the houses down - be it dark or light  
We sacrifice the day - electrify the night
