

Speeder

U.D.O.

Switch on the power
Screaming fast
Lungs are burning - sucking in the dust
Like a freebird
Flying high
Tearing up the atmosphere - ripping up the sky

It's faster than the light
You better step aside
The speeder of the night

No way to stop it
Out of control
It has no limits - I want it all
High as a fever
Extreme and hot
Terrifies your braincells - it never stops

It's faster than the light
You better step aside
The speeder of the night

Speeder - deadlier than all
Speeder - like a thunderstorm
Speeder - like a wrecking ball
Speeder - faster than you all

Redline the hour
Coming fast
Countdown to zero - like a lightning blast

A supernova
Radiates
A thunderwall - it's coming in your face

It's faster than the light
You better step aside
The speeder of the night

Speeder - deadlier than all
Speeder - like a thunderstorm
Speeder - like a wrecking ball
Speeder - faster than you all
