Here I tell my story Believe what I have seen And nothing had prepared us The welcome we received Coming back from Kazakhstan The gear has not arrived The fans geared up and ready We rocked them for their lives [Chorus:] Trainride in Russia - Again and Again Trainride in Russia - Nastrovje man to man The rolling of the wheels The distance of the land Trainride in Russia - That's where it all began With Igor and with Fitty Naked in the car Shouting at each other Who the fuck's the Tsar Swetlana was a darling Her face will never fade She made Lorenzo happy Showed him the Russian way [Chorus] And our crew was blinded A challenge they did raise The Russian guys were ready And won the vodka race When drinking with the pilots A Southern Comfort round Then Stefan's fear of flying Came crashing to the ground [Chorus] Parading for their victory Army, Air and Corps Looking up the building Where Udo was the star And when the tour is over We're never quite the same Already miss our comrades Until we meet again [Chorus]
