

## Drugs

Uffie

The drugs don't love you like I do  
Don't walk away from me tonight  
The clubs won't treat you like I do  
Don't walk away from us tonight

Always later, always later when you coming home  
Know its bad when you didn't even take your phone  
Why do I try  
Everything we ever wanted is in front of us  
Begging you to try and see before you give it up  
Why do you lie  
Don't need your Gucci sorry's  
I just worry about you darling  
If you're okay I'll stop calling

The drugs don't love you like I do  
Don't walk away from me tonight  
The clubs won't treat you like I do  
Don't walk away from us tonight

You're a legend but you never let the party end  
It's 3 pm and I'm wondering where you are again  
Why do I try  
Don't need your Gucci sorry's  
I just worry about you darling  
If you're okay I'll stop calling  
But you gotta know

The drugs don't love you like I do  
Don't walk away from me tonight  
The clubs won't treat you like I do  
Don't walk away from us tonight

The drugs don't love you like I do  
Don't walk away from me tonight  
The clubs won't treat you like I do  
Don't walk away from us tonight

Don't walk away (Don't walk away)

Don't walk away (Don't walk away)
