

Another Saturday Night

UFO

Thought I'd seen some changes
Thought I knew it well
But through my back pages
There's a tale to tell
Guess when I saw you
I didn't have a chance
Though I know her reputation
I know I liked that first dance
Was this a real love
Or just another hot Saturday night?
Was this a real love
Or just another hot Saturday night?
Can't stop from thinkin'
What we could do
Just one night there
I finally knew
Lookin' at the distance
Between you and my heart
I never knew I'd fall
Right from the start
Was this a real love
Or just another hot Saturday night?
Was this a real love
Or just another hot Saturday night?
This is one time you can't walk away-
This time I've got to stay.....
