Heaven knows that you're an evil child,

Drive me crazy, drive me wild

Get home from work I don't feel alright

Go in your bedroom you just want to fight

Moving in, moving out, baby you move my mind about

Don't give me no reasons don't give me no lies

Come to take you home from school you've broken all the rules

All I need is a bit of your love

All I want is a bit of your love

All I want is a part of you...

Heaven knows that you're an evil child,

Drive me crazy, drive me wild

Get home from work I don't feel alright

Go in your bedroom you just want to fight

Moving in, moving out, baby you move my mind about

Don't give me no reasons don't give me no lies

Come to take you home from school you've broken all the rules

All I need is a bit of your love

All I want is to hold you tight

All I need is a part of you...
