

Make Love

Uniting Nations

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby get up now, turn your look around

We're holding up right now
It makes you feel somehow
We'll be together forever there's no doubt
Holding up right now, it makes you feel somehow

Just making love, we're making love
Just making love, we're making love

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around

Just making love, we're making love
Just making love, we're making love

Baby, get up now
Turn your look around

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around
