

Nursery Rhyme / Breather

UNKLE

Does it mean I never let you know
Each time I turn inside
When I fully grow I'll outsize you
But I won't let you fall in love
You know it flows over me
And you won't let me drown inside

Sing a nursery rhyme to keep me quiet
Sing a nursery rhyme to keep me quiet
Woman please stay close to me, close to me
Carried through your ecstasy

You can't stop me breathing
Even when you're on fire
Know that you're weaving
With my emotional wires
Flows through me
In through me
Out through me
Over me
Feeling me
Feeding me
Electrically

It's electric ballroom love

I have to breathe the air you breathe
I'm inside you
In a room inside a room
I'm inside you
The colour changes
Follow your emotion
I can see when you're feeling desire
I feel him close to you
While I just walk around inside you
Don't let him close to me
Not when you know it's not the one
The one
You love

It's electric ballroom love
Keep me quiet

Won't you sing me a nursery rhyme
To keep me quiet while you're on fire

Please just sing me a nursery rhyme
To keep me quiet while I'm inside

I won't let you fall in love
You know inside the baby knows

Your baby knows

You're on fire

Keep me quiet

Breathe the air you breathe
