

Built from War

Upon a Burning Body

Are you the strongest of them all

Cross the lines of fate
Wipe the blood from your face
Forged in the heart of the fire
Fueled from failure

Made for more
Built from war
Made for more
Built from war

The power remains, the blood fueling rage
Don't turn away, to rise you must fall
Tell me do you have the strength within you
To be the strongest of them all

Made for more
Built from war
Made for more
Built from war

Start the battle and end the war
Strength is the only way out
To be the strongest of them all
Strength is the only way out
To be the strongest of them all

Made for more
Built from war
Made for more
Built from war

Built from war

What are you built from
Are you the strongest
What are you built from

Strength is the only way out
Strength is the only way out
To be the strongest of them all
