

Burn

Upon a Burning Body

I walk alone, nothing came easy
My mother made me but these streets they raised me
Fear all around violent surroundings
Kicked while I'm down but you still won't break me

The fear, the love, the pain, the shame
Burn it all, ignite the flame
The fear, the love, the pain, the shame
Let the fire burn it all away

Burn burn burn
Burn it all away
Burn burn burn
Burn it all away

We lit the match, struggle fueled the flame
Our fight, our strength is what made the change
Keep your head up, be who you wanna be
But just remember respect is everything

The fear, the love, the pain, the shame
Burn it all, ignite the flame
The fear, the love, the pain, the shame
Let the fire burn it all away

Burn burn burn
Burn it all away
Burn burn burn
Burn it all away

When the ashes block out the sun
We are reborn

Never never never fear the fire

Take all your fear, love, pain and shame
And let the fire burn it all away

Burn burn burn
Burn it all away
Burn burn burn
Burn it all away
Burn burn burn
Burn it all away
Burn burn burn
Burn it all away
