

Chains of Agony

Upon a Burning Body

This is not the life I promised you

Let's go back in time
Back to this hell of mine
It felt like it would last forever
Walls closing in on me
These demons never sleep
I won't live like this
It's now or never

I found a way to a life so far away
So walk away from the chains of agony
Chains of agony!

Let's fast forward time
To a better life
One we'll make last forever
This time with no more doubt
And no more pain
No more struggle
We will remain

I found a way to a life so far away
So walk away from the chains of agony

I will give you the life I promised you

I found a way to a life so far away
So walk away from the chains of agony

So walk away from the chains of agony
So walk away from the chains of agony

We will have all the things we ever wanted
A life we could be proud of
All I want is for you to be happy
To see you smile from cheek to cheek
Cause we don't have to dream anymore
I will always fight for you!
