

## King of Diamonds

### Upon a Burning Body

No one gets left behind!

It's fucking no man's land  
So watch what you say  
Choke on the violence you're fed  
No words are spoken  
No room for debate  
Just run straight through the ones that you hate

Power, strength, and virtue  
Failure won't deter you  
We will never surrender

Here on the front line, it's a war  
Never forget what you're fighting for

No one gets left behind!

Power, strength, and virtue  
Failure won't deter you  
We will never surrender

Here on the front line, it's a war  
Never forget what you're fighting for  
Here on the front line, it's a war  
Never forget what you're fighting for

Never surrender  
We are all born for battle

Let power reign!

Here on the front line, it's a war  
Never forget who you're fighting for  
Here on the front line, it's a war  
Never forget who you're fighting for
