

## Never Alone

### Upon a Burning Body

Reaching for a way out  
From inside your mind  
Your running for your life  
You're in over your head  
Such a familiar feeling  
The weight is holding you down  
When will this suffering end

Never alone  
Through the fight we are strong  
Though we hurt from the dirt we rise  
Never alone  
We all dream through nightmares

Through the heartache we remain  
Every barrier we will break

When hope escapes your life  
And leaves you feeling trapped  
How can you ever feel alive  
Lost in a haze  
Fighting through dark days  
Demons clawing at the door  
I can't take it anymore

Through the heartache we remain  
Every barrier we will break  
Through the heartache we remain  
Every barrier we will break

Hold on  
Hold on cause we are

Never alone  
Through the fight we are strong  
Though we hurt from the dirt we rise  
Never alone  
We all dream through nightmares

Through the heartache we remain  
Every barrier we will break  
Through the heartache we remain  
Every barrier we will break
