

Snake Eyes

Upon a Burning Body

Every fang drips with venom
Don't give into the lies snake eyes

Straying off the path of the unknown
You can take this soul
Fear of growing scales of my own
No longer let the serpent speak
You can't take this soul
Slithering sounds of deceit

Makes you numb from now to never
Cast out fear now and forever

You can't take this soul
You can't take this soul

Don't give into the lies snake eyes!
Don't give into the lies
Snake eyes

In the tall grass fear what lurks below
You can't take this soul
Shake the pain and take control

Makes you numb from now to never
Cast out fear now and forever!
From now till never!

Spineless you can't hide it
Through the scales and disguise snake eyes
Snake eyes
Don't give into the lies!
Snake eyes

Slither with the snake through the sands of time
Or be the light and take back your life

Slither with the snake through the sands of time
Or be the light and take back your life
Slither with the snake through the sands of time
Or be the light and take back your life!
