

Logical Progression

Uriah Heep

You say her love has gone forever
And something has gone from your soul - it's left you so cold
Though you wish you had the answer
The question is always untold - always on hold
What's in the mirror
What do you see

It's a logical progression
When you think that you lost all that time - it's all in your mind
What's in the mirror
What do you see

Lay down now and close your eyes
It's only just begun
'Cause mind and body flow in perpetual motion

Set free all your memories
They're tearing you apart
'Cause you know that love is the only direction

The reputation that you live by
Says something about what's inside - nowhere to hide
There is no amount of heartache
That could ever wash over this burning - forever learning
Look in the mirror - will you do it all again

Lay down now and close your eyes
It's only just begun
'Cause mind and body flow in perpetual motion

Set free all your memories
They're tearing you apart
'Cause you know that love is the only direction

You got time on your side
You know you'll find the truth within you
You got time on your side
As the seconds tick away love is waiting for you
You got time on your side

You say her love has gone forever
And the image has left you so cold - still in your soul
There's no way your gonna turn back
You'll never wash over this burning - forever learning
Look in the mirror - will you do it all again

Lay down now and close your eyes
It's only just begun
'Cause mind and body flow in perpetual motion

Set free all your memories
They're tearing you apart
'Cause you know that love is the only direction

You got time on your side
As the seconds tick away love is waiting for you
