

# Playing for Time

Uriah Heep

Try, you get a roll of heartacche  
Hear it and you're with my mind  
I've played with fire, burned my fingers  
Now I'm gonna take my time  
You don't have to shout about it  
Can't you see it obvious  
Feel it's getting close to comfort  
Why you make me search no more

Take your time with what you're doin'  
I can see the stage appear  
Seized and held it on before her  
Don't you understand my fear  
Can't you see the time will tell us  
How it's gonna always be  
You can wrap me around your finger  
And that ain't no mystery

Playing for time  
That's all I can do  
I'm playing for time  
Before I fall in love with you

You can push me every which way  
Hey I got no place to pull  
Yes we'll do no rule devotions  
When you fax the ace ???  
Hold on, that is what the games go  
And I want the nibble now  
You can get to dream about it  
I won't do it anyhow

Playing for time  
That's all I can do  
Playing for time  
Before I fall in love

Playing for time  
That's all I wanna do  
Playing for time  
Before I fall in love

Break it off!

Oh you don't have to shout about it  
Can't you see it obvious  
Feel it's getting close for comfort  
Why you make me search your bus  
Travel down the road of heartache  
Hear it in your with my mind  
Played with fire, burned my fingers  
Now I'm gonna take my time

Playing for time  
Before I fall in love with you  
Playing for time  
That's all I want to do

Playing for time  
Before I fall Playing for time  
All I wanna do  
Playing for time [vocal ad lib to end]
