

# Nothing Left To Say

US5

There's nothing left to say  
Got nowhere left to go  
I feel it in my heart beat  
Can you feel my heart beat  
I'm torn into pieces  
Don't know all the reasons  
But you gotta go  
I'm taking back control

I can see you, you're looking away  
Like a player that's caught in the game  
Tell me  
If you're seein' somebody  
Are you seein' somebody else  
Somebody else

You can claim that it's all in my head  
Talkin' crazy well you pushed me to this  
Tell me  
Is there really somebody  
If there's really somebody else  
There's nothing left to say  
Got nowhere left to go  
I feel it in my heart beat  
Can you feel my heart beat  
I'm torn into pieces  
Don't know all the reasons  
But you gotta go  
I'm taking back control

You can't tell me you love me the same  
Stop pretending and just take the blame  
Show me  
That there's really nobody  
Cos I know there's somebody else

St-st-stuttering because you got caught  
Now I'm taking back all the lies that I bought  
Sorry  
Gotta find me somebody  
Gotta find me somebody else

There's nothing left to say  
Got nowhere left to go  
I feel it in my heart beat  
Can you feel my heart beat  
I'm torn into pieces  
Don't know all the reasons  
But you gotta go  
I'm taking back control

No telling me you can make this better  
No asking me to forget your lies  
It's gone too far you can't change a thing  
About me
