

# Sins of My Father

Usher

My sons, keep them  
Please forgive me!

Woah now, I think this woman went and put a hex on me  
Woah now, why'd I let her go and put that sex on me  
Woah now, I probably shouldn't of watched that girl undress for me  
Oh, the scent of her perfume in the air  
Got it feeling different in here, yeah  
She took my breath away  
On to some fancy shit  
Into another place  
Such an expensive trip  
But she didn't make me pay for it with my money

Oh, it's the sins of my father  
He left a debt to his son  
To pay the girl who's a mother  
Collector won't let me run, no  
But she didn't make me pay for it with my money,  
I paid for the sins of my father

Oh, now she's speaking in a tongue that sounds new to me  
Oh, now momma told me what this could do to me  
Oh now, I wouldn't fall for something like this usually  
No, no, tell me how could I ever prepare  
If my papa never was there?

Oh, she took my breath away  
On to some fancy ship  
And to another place  
Such an expensive trip!  
But she didn't make me pay for it with my money

Oh, it's the sins of my father  
He left a debt to his son  
To pay the the girl who's a mother  
Collector won't let me run, no  
But she didn't make me pay for it with my money,  
I paid for the sins of my father

(Father) Hurt me, please me yeah  
(Father) No, I don't deserve the debt that came with my birth  
(Father) No, oh, why have I been pretending this is somethin' that that man  
come up with?  
I'm praying I reverse this curse

Oh, it's the sins of my father  
He left the debt to his son, hey  
To pay the the girl who's a mother  
Collector won't let me run, no, hey  
But she didn't make me pay for it with my money,  
I paid for the sins of my father
