

# Tempest

Vader

Did I request thee  
To enforce your will on me?  
From womb to tomb  
Being bound to you, maker?

Cast out and fallen  
Into my empire  
Upon the blood of my soul  
That ever was or shall be

Now shunned into fury

A sign, which I know so well  
The violent storm about  
To surge the savage tempest in a fire  
As I render your brightest day  
Into your darkest night  
Onward! War will form on my command

Dominion of my dreams  
Unclean and unholy  
Pain and sorrow  
Fear me! All shadows are calling now!

Lead: Spider

War, chaos, fear and death  
Beast inside consumes my humanity  
Dark, winged shadow arised  
Takes my soul to the void of hell

Lead: Peter / Spider

Once words were spoken  
From the darkness you must fall  
From torture and bliss  
Battalions have arrived

As the wind cries  
All demons roar in fury  
Onward! War! Tempest uncontrolled
