Warlust!!! Screaming out all pain Mercy died It's gone forever Fear is not my ally Total attack!!! I am conqueror I spill blood Hell's child Is the name you know And I always raise my sword Against the liars In fury Now I'm asking you-What colour is your blood? You love to take Like parasite of life Now I will take you down To the land of endless cry... Fell the touch of grace Your last emotions Welcome at the gates of hell!!! I hear the puls in your veins The eyes are growing bigger When you smell the steal of blade Like razors cut I open your heart Crimson fluid is dancing And life is running out Hell's child is the name you know And I always raise my sword Against the liars

In fury
Now I'm asking youWhat colour is your blood?
What colour is your blood?
What colour is your blood?
