Not even they can stop me now  
What have the flying all ahead  
And every words can bring me down  
What happen from the day day day

For trade barn I'm strapped with ney palm  
Running the biggest bank like this won't take long  
We don't want your money we're coming for straight bar  
So stay calm no O spray for spray all  
So bug off get rapped off

Discuss soft speaking the powdery much more

Rent to the dealer for the same knocking resign field

Go to calido way it's a month that you still  
Trapping back on my mind still drunk at the table  
As I make the battle or whine spill  
Fresh of my high haters, high haters  
Reckless when I bust around later  
Only square you ever bought was now later  
Once you buzzin the whole's coming vibrator

And then the dreams can drill somehow  
Passed what I chase underlie was dead  
I heard the streets were faithless gone  
Passed where my father said

Cossie on some new shit made it from breaking two bricks  
Bosses take losses and working just make excuses  
Every verse is exclusive, every word is abusive  
Playing dirt if you use it  
Get the bur you can move it
