

# Mask of Sanity

Valient Thorr

Wear a mask of sanity, it takes a lot of time  
You gotta claw your way from the  
bottom of the ladder if your  
gonna stand out in line.  
You'd never guess the secret for a  
trick to play out so well  
You gotta make a deal with someone if  
You're gonna reign in hell, c'mon  
Running on empty to be free,  
You're wearing a mask of sanity  
Take care of yer problems and let me be,  
You're wearing a mask of sanity  
You ain't got no divinity, no  
You're wearing a mask of sanity  
Get too close and you might see [if you]  
Wear a mask of sanity and cover up your tracks.  
If you're in for the long  
hual brother you got to watch behind your back.  
Don't reveal your sources mama,  
Watch who you befriend  
If you let them get too close,  
it'll prove to be your end  
C'mon! Running on empty to be free  
You're wearing a mask of sanity  
Take care of yer problems and let me be,  
You're wearing a mask of sanity  
You ain't got no divinity, no  
We all wear a mask of sanity  
You got the pieces  
You got the power  
And no one needs to know  
You're in a tailspin, you wanna live forever  
Someone wants to be forever  
Someone has to get together  
My brains are messed up  
From all the things I've tried.  
I bought this mask to wear so I can hide  
It makes me look normal - now they all think I'm sane,  
I put my mask on and wash away the constant pain  
I used to look for fun - now I'm too lazy  
I put my mask on and then I'm not so crazy  
If you are trapped now -  
and you need to be free  
Hit the road with a mask of sanity, C'mon  
You got the pieces  
You got the power  
And no one needs to know  
You're in a tailspin  
You wanna live forever  
Something has toget together  
Someone must take it home  
He's never going home  
He's only gonna roam  
HE'S NEVER GOIN HOME!  
I feel "let down" well up inside of me  
That's when I put on a mask of sanity.
