

Party On The Moon

Vanessa Hudgens

Is anybody out there?
Is anybody out there?
Is anybody out there?
Is anybody out there?

Oh so crazy
Conscious amazing
On the moon, whoa, whoa
Go astrologic
Meteor, Stop it, whoa, yea

It's like a rocket, rocket
You can't stop it, stop it
Once we blast off
Were on a lunar mission
This isn't science fiction
Leave your troubles on Earth
Take my hand

We're flying to space
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited
Bring your friends too
So excited
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited
Bring your friends too
Yeah, yea
Party on the moon (party on the moon)

Is anybody out there?
Is anybody out there?

Oh, start racing
Fast stars are blazing
On the moon, whoa, whoa
I see major hotties
So beam me up scotty
Whoa, yeah

It's like a rocket, rocket
You can't stop it, stop it
Once we blast off
You got a hundred problems
And I know how to solve them
Leave your troubles on Earth
Take my hand

We're flying to space
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited

Bring your friends too
So excited
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited
Bring your friends too
It's so exciting
Yeah, yea, yea
Party on the moon (party on the moon)

Intergalactic, whoa
The time is elastic
But no one knows it
Your world is static
Leave your troubles on Earth
Take my hand

We're gonna escape
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited
Bring your friends too
So excited
We're defying gravity
Somewhere in the galaxy
There's a party on the moon
And you're invited
Bring your friends too
It's so exciting
Yeah, yea, yea
Party on the moon (party on the moon)

Yea, yea, yea
Party on the moon (party on the moon)

Is anybody out there?
Is anybody out there?
