

Scatter the ashes of your mind  
The weight of life is endless  
You've seen the darkness turn to light  
Don't fear the unknown stranded your pain is blinded  
The walls of doubt are breaking  
These thorns of hurt are failing you  
Don't fear the unknown

Free the fire within me  
Free the fire within you  
Free is the soul within me  
Free is the soul, the soul within you too

Free in your blind eyes did you find  
The path of strength to walk on  
The past of hurt is failing you  
Don't fear the unknown

Free the fire within me  
Free the fire within you  
Free the soul within me  
I'll free the soul, the soul within you too

Free your fire within me  
Free the fire within you  
Free your soul within me  
Free your soul within you

Free your fire within me  
Free your fire within you  
Free your soul within me  
Free your soul within you

Free your mind
