

Staring at the edge
Reaching out to the world
Feels like I'm alone and all I see here and now
Life's so endless, I know
At the end there is darkness deep within
Life so endless
Who knows if we find all the answers deep within

I'm tired of playing witness, I feel I've had enough
We don't need to listen - oh no
Preying on the weakness, reality's the drug
It can feel like you're drowning

You don't have to change the world
I will keep you safe
In this game you will change
Bring the dark to light
You don't have to change the world
I will keep you safe
In this game you will change
Bring the dark to light

Who's standing at the edge of the world
Here and now
Who feels like they're alone in the world
Here and now, life's so endless

I'm tired of playing witness, I feel I've had enough
We don't need to listen - oh no
Preying on the weakness, reality's the gun
It can feel like you're drowning

You don't have to change the world
I will keep you safe
In this game you will change
Bring the dark to light
You don't have to change the world
I will keep you safe
In this game you will change
Bring the dark to light
