Swallow Song

Vashti Bunyan

And there's a sunset brimming over the sky And there's a swallow teaching it's young how to fly Up on high See how fast the summer passes by

And there's an oak leaf turning green into brown And there's a pine so proud of her evergreen gown Looking down See how fast the winter comes around

And there's a rain cloud passing over our heads And there's a cat on the doorstep waiting to be fed Milk and bread Day is done and now it's time for bed
