

Almost Perfect

Vaughan Penn

There's a reason for the situation
It's amazing, the shocking revelation
Love is crazy, it's got me upside down
It's got me upside down
Well life hits you and love gets you
You just gotta go with the flow
Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here
If you give in, don't let it freak you out
'Cause you're the one thing I've got this thing about
It's this emotion it's got me inside out
It's got me inside out
Well life hits you and love gets you
You just gotta go with the flow
Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here
It's almost perfect here
