

Turn

Vera Blue

Growing up the best way that you can
Now you know, how it goes
Feeling like a child who need a friend
Here we go, here we go again

Now I'm running in a circle
Wanting to be free again
Take a step forward, I take a step back
Don't know what it is I'm doing so wrong
Why can't I just move on

I'm burnt out
But I think I'm ready to turn this around
And I sing loud
That I think I'm ready to turn this around
Turn, turn, turn, turn

Feeling like something's left behind
Even though the sun always shines doesn't mean you feel warm inside
Life is just a picture in your mind
Don't let it go
Don't let it go

Now I'm running in a circle
Wanting to be free again
Take a step forward, I take a step back
Don't know what it is I'm doing so wrong
Why can't I just move on

I'm burnt out
But I think I'm ready to turn this around
And I sing loud
That I think I'm ready to turn this around
Turn, turn, turn, turn

Turning around the reasons
Changing time and seasons
Turning around the reasons
Changing time and seasons
Turning around the reasons
Changing time and seasons
Turning around the reasons
Changing time and seasons

I'm burnt out
But I think I'm ready to turn this around
And I sing loud
That I think I'm ready to turn this around
