

Time Stood Still

Vern Gosdin

You made my world go round
But now its upside down
Time stood still
When you said goodbye.
You made my heart complete
Then broke it at my feet
Time stood still
When you said goodbye.
And now the seasons dont change
The days have no names today is like yesterday
I lean on the wine but your memories
Like time, baby, won't stay away.
To get you off my mind
Just takes a little time
But time stood still
When you said goodbye..
