

# In Amongst the Millions

Vic Chesnutt

It was the languid years, duels were fought so that bastards in the end died with honors.

It was an epoch so unlike the one that we got cause people can't die anymore.

I should've been buried long ago, but they electric shocked me though.

I oughtta be pushing up the pine straw cause people can't die anymore.

I'm embalmed! I'm a mummy! I got herbs and spices in my stomach

.

I should be a dirty piece of solid red ground, but because of some cure they found,

I'm still around, in amongst the millions, cause people can't die anymore.
