

Power of the Night

Village People

Woah oh oh yeah
Wooo ooh Wooo ooh

I'm lost in your spell
You know me too well
I'm under your magic
Just one whiff and I fell
You know my every desire
You are the fuel for my fire
You call the tune and i'm dancing
On your invisible wire

In the dark so tender
You forced me to surrender
The Power of the night
So strong
The Power of the night
Woah
You hold me in your prison
Until the sun has risen
The power of the night
So strong
The power of the night

Taking me completely
Taking me down deeply
Taking me to places
I wanna go, i wanna go, i wanna go, i wanna go
By myself I deever
Do these things I ever
Darkness gives me stength
The power of light

You keep me alive
You help me survive
By daylight i'm nothing
By night life i cry
I count the hours till sunset
I live from midnight till dawn
I come alive in the darkness
I want the night to go on

In the dark so tender
You forced me to surrender
The Power of the night
So strong
The Power of the night
Oh Baby
You hold me in your prison
Until the sun has risen
The power of the night
Oh yeah
The power of the night

Listen

I'm a moonlight dancer
Baby that's the answer
As Soon as stars appear they know
i wanna go i wanna go i wanna go
Take me undercover
Darkness to a lover
Got no will to fight
The power of light

Woah oh oh yeah
Wooo ooh Wooo ooh yeah

In the dark so tender
You forced me to surrender
The Power of the night
So strong
The Power of the night
Oh baby
You hold me in your prison
Until the sun has risen
The power of the night
Oh yeah oh yeah
The power of the night
Oh baby
You know my every desire
You are the fuel for my fire
You call the tune and i'm dancing all night long
I gotta go I gotta go I gotta go I gotta go

Im lost i your spell
You even know me to well
Just on whiff and i fell for you baby
I gotta go I gotta go I gotta go I gotta go

Thats the answer

I gotta go I gotta go I gotta go I gotta go

You keep me alive
You help me survive
