

Fool in the Full Moon

Violent Femmes

I've been following women all afternoon
I've been following women all afternoon
Don't turn around too soon
I've been following you all afternoon
Following you a fool in the full moon

Well, something's got a hold on me
When I get a hold of you
Something's got a hold on me
When I get a hold of you
Following women after dark
Nobody knows what's in my heart
When I'm following you I'm a fool in the full moon

Let your loving be
I'm a lechery
I do not spread leprosy
I will not touch but let me see
When I'm following you I'm a fool in the full moon

My building's burning down and I cannot breathe
My building's burning down and I cannot breathe
Following you
Who won't believe?
Perfect peace I cannot perceive
When I'm following you I'm a fool in the full moon
When I'm following you I'm a fool in the full moon
