

7:24

Volbeat

The waiting felt like forever but now I see the light
Removed my ego and focus for you, my only child

I miss you deeply when you're not around
The things that you say
Can make my whole day

You're finally born, little angel
Mama's on the phone, out of breath
Well, I thought that you should know
It's 7:24 and I love you

I'm filled with pride and joy, thank you Ea Abigail
You are a gift like your mother, I love you just the same

I miss you deeply when you're not around
The things that you say
Can make my whole day

You're finally born, little angel
Mama's on the phone, out of breath
Well, I thought that you should know
It's 7:24 and I love you
You're finally born, little angel
Mama's on the phone, out of breath
Well, I thought that you should know
It's 7:24 and I love you

I'm your lullaby
You're my shining light, oh-oh-oh-oh-oh
A little one to love
And soon you're growing up, oh-oh-oh-oh-oh-oh-oh
I'm your lullaby
You're my shining light, oh-oh-oh-oh-oh

No matter where you would like to go in life
I'm always gonna be right there by your side
There may be some things I don't understand
I'll do my best, just remember that I care

You're finally born, little angel
Mama's on the phone, out of breath
Well, I thought that you should know
It's 7:24 and I love you
You're finally born, little angel
Mama's on the phone, out of breath
Well, I thought that you should know
It's 7:24 and I love you
