

Nowhere Left to Go

Voodoo Glow Skulls

I have no choice but to be confined
Stagnant like a fish in a bowl,
It's more of a struggle just to survive.

What's all this hype about everyone talking like there is
Nowhere left to go?

Life is too short just to sit around,
Don't give up because of your past
Pick up all those stepping stones.

What's all this hype about everyone talking like there is
Nowhere left to go?
What's all this hype about everyone talking like there is
Nowhere left to go?

Trying to escape the concrete jungle
Is a life long task,
Some take it for granted,
In the end they find there's

Nowhere left to go.
Nowhere left to go,
Nowhere left to go,
Nowhere left to go.

What's all this hype about everyone talking like there is
Nowhere left to go?
What's all this hype about everyone talking like there is
Nowhere left to go?

Some never see the desert, some never see the woods,
Just all these people talking about there's no where left to go.
Some never see the ocean, some never see the snow,
We've got all these people talking about there's nowhere left to go.

I have no choice but to be confined
Stagnant like a fish in a bowl,
It's more of a struggle just to survive.
Life is too short just to sit around,
Don't give up because of your past
Pick up all those stepping stones.

What's all this hype about everyone talking like there is
Nowhere left to go?
What's all this hype about everyone talking like there is
Nowhere left to go?

Nowhere left to go.
