

Liberate

Votchi

You're fucked up, while you're walking down the street
Awaiting all those stupid faces you wish you'd never meet

Your soul is in despair from all the mass you see,
But don't be angry, man, turn yourself to me.

You've got to liberate all the people that you hate.

You've got to liberate all the people that you hate
You've got to liberate them all [celebrate].
