

# If We Ever Make It Home

Wade Bowen

Is anybody out there searching  
Has anybody lost the way  
Am I the only one who's hurting  
Today

Must have got some bad directions  
How'd we ever end up here  
All this pain and desperation  
And fear

If we ever make it home  
They'll be peace like we've never known  
Nobody's gonna walk alone  
We'll be leaning on each other

Every wall that we've built up high  
Is gonna fall right before our eyes  
Love will surely conquer hate  
If we ever make it home

There's darkness in the daylight  
As the devil works his trade  
He's the first one to the gravesite  
With a smile on his face

There's a flicker in the distance  
Where a single candle glows  
And another walking with us  
Who knows

If we ever make it home  
They'll be peace like we've never known  
Nobody's gonna to walk alone  
We'll be leaning on each other  
Loving one another

Every wall that we've built up high  
Is gonna fall right before our eyes  
Love will surely conquer hate  
If we ever make it home

Oh if we ever make it home
