

# What I Meant To Say

Wade Hayes

Last night I told a lie  
When I told you I could say goodbye  
Here in the light of day  
What a crazy thing for me to say

What I meant to say was I love you  
What's been killin' me is I hurt you  
What I didn't do was hold you when I saw the teardrops fall  
What I should've said was I'm sorry  
What I should've said was forgive me  
What I meant to say was what I didn't say at all

Last night I had a dream  
You were really walking out on me  
I woke up scared to death  
Please forget about the things I said

What I meant to say was I love you  
What's been killin' me is I hurt you  
What I didn't do was hold you when I saw the teardrops fall  
What I should've said was I'm sorry  
What I should've said was forgive me  
What I meant to say was what I didn't say at all

What I meant to say was what I didn't say at all
