

Fury

My scars have shown me who to be
Held me down, pushed around but never buried me
No compromise, no fear of pain
I fight the war when you run the other way

One judgement, no Jury
I am, I am the fury

Break free
You have to face the truth
No peace
When there's a war in you
One judgment, no jury
I am, I am the fury

This is a warning shot
It keeps me honest to God
You could never survive in a world of casualty
Open wounds turned to brick built my legacy

One judgement, no jury
I am, I am the fury

Break free
You have to face the truth
No peace
When there's a war in you
One judgment, no jury
I am, I am the fury

All my enemies hide around me
I am the fury

Break free
You have to face the truth
No peace
When there's a war in you
One judgment, no jury
I am, I am the fury

I am the fury
One judgment
No jury
... Don't ask for mercy
