

HERE WE GO! (Overtime)

Walk Off the Earth

I've been waiting for this day and I've been training like a horse would train if a horse pulled trains
People saying I won't make it and I'm living in a bubble but I'm floating so ya can't pop may
I've got the prize on my eye and I'm shining like Orion cause I'm way too fly
I'm really lit and literally making millies on the dilly wait that's silly cause it's figuratively

And I fall down all of the time
But I get back up on the grind
I'll flip burgers or dimes
I'm puttin' in that over time

Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo

We've been logging all these hours drinking lagers in the shower just to log a log cabin on Sunday
Never been in a predicament to find a synonym for cinnamon but if I did I'd be lovely
We got the prize on our eye and we're burning like a tire cause we won't get tired
We've been living in the kitchen but the situation isn't worth a listen if you burn all yo' money

And I fall down all of the time
But I get back up on the grind
I'll flip burgers or dimes
I'm puttin' in that over time

Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo

In that over time
I fall back and close my eyes
Feel the breeze of the summer night
And drift to a place that's mine
And I'll know when all my stars align
That it wasn't just a waste of time
A reminder that I'm still alive

Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo

Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
Here we go, here we go, here we go, iko iko I yo
