

## Down Past the Bottom

Wanda Jackson

Down past the bottom, falling harder than a stone  
Get to handlin the good times that I've known  
Sinking lower and lower  
Down past the bottom where the devil won't go

Down past the bottom, nothing left to do but fade  
No place to wonder, nowhere left to sail  
Sinking lower and lower  
Down past the bottom where the devil don't dwell

I got the feeling in your last letter  
Could've been a little nicer, treated you better  
Just to have a hold of the time for thinking  
A lot of time for walking, a lot of time for thinking

Down past the bottom  
Down past the bottom where the devil won't go

I got the feeling in your last letter  
Could've been a little nicer, treated you better  
Just to have a hold of the time for thinking  
A lot of time for walking, a lot of time for thinking

Down past the bottom  
Down past the bottom where the devil won't go

Down past the bottom, falling harder than a stone  
Get to handlin the good times that I've known  
Sinking lower and lower  
Down past the bottom where the devil won't go
