Hellbound

Starlight Now it's the time Now I will try To realise my desire To strike back Tonight I'm prepared for this time To kill demons of crime I will fight Fight for my right For many years I've been under a curse I swear...I've been under a spell The time is right I will flee from this hell Ooh everywhere I see Ghosts all around (I'm hellbound) (I'm hellbound) Moonlight I'll take my weapon Of attack (And) without fear Of death I wait Midnight I feel ghosts Are all around (but) I hold my ground To survive Fight, fight, fight I will fight Fight for my right For many years I've been Under a curse I feel, I've been under a spell The time is right I will flee from this hell Oh, everywhere I see Ghosts are all around I'm hellbound (I'm spell-bound)
