

# Madame Satan

Warrel Dane

A war rages inside of me  
Should i choose heaven or hell?

Drag me down to hell  
And make my deny God  
Pull me under and watch as I evolve  
Love me tender  
But kill me slowly

Madame Satan  
Please come to me (come to me)  
My succubus, our eternal lust  
Please crucify me  
Kill me in my dreams  
My sweet Madame Satan  
My sweet Madame Satan

A battle of innocent  
That most cannot comprehend  
A sweet place of pure disgrace  
Awaits in the setting sun  
Face fear and i'll make it clear  
The ending has begun

Madame Satan  
Please come to me (come to me)  
My succubus, our eternal lust  
Please crucify me  
Kill me in my dreams  
My sweet Madame Satan  
My sweet Madame Satan

Lies and hatred, our minds stripped naked  
Guided by decay  
Reign in suffering from the depths of chaos  
Who are we to be saved?

Praise the saints of abomination  
Lay the past in its grave  
Only humans use pain and torture  
For their foolish, selfish gain

You can pull me away from time  
But you can't escape the afterlife

I can see the future sky is black  
In the final days  
Hell is hot and waits for me  
Just a blasphemous man insane

Life is torture  
Maybe we are not immortal

Madame Satan  
Please come to me (come to me)  
My succubus, our eternal lust  
Please crucify me

Tonight we can dance like freaks  
Until the devil speaks  
If we all are going to hell  
That's where all my friends will dwell  
Where all my friends will dwell

In hell
