Watain

Fire at will!  
Arsonists of Lucifer  
Conflagration sworn  
Heed the flames command  
Let the holocaust commence  
Angel of the sulphur pit  
Tread forth, from the gas cloud

We toil to fuel the fire  
Such is our sacred fate  
'Til black smoke rise at heavens gate

All that was burning again now must be  
Nuclear Alchemy

Onward!  
Tidal wave of alkahest  
Disruptions holy force  
Cloaked within the darkness of the world  
Burst forth!  
Cremators of the crucifix  
With vitriol in heart

But first our flesh must burn  
To flame our minds must turn  
Until we stand erected  
Perfected and prepared  
Like spearheads of Satan's host

Attack!

All that was burning again now will be  
Nuclear Alchemy  
Transform! Aspire!  
By the fire of will and the will of the fire  
Nuclear Alchemy
