

# Beat Me Up

Wavves

Memories

They're her reason why  
She takes it all  
And slowly starts to cry

Do you really think I easily bruise?  
I ask what about the pain that leads to marvel  
I just wanna spend some time with you  
Some time with you, some time with you

And you could beat me up  
You could beat me up

You're all the enemy  
That's my reason why  
I love the pain  
It makes me wanna die

Do you really think I easily bruise?  
Or do you have a smoke that I could borrow?  
I just wanna spend some time with you  
Some time with you, some time with you

Or you could beat me up  
You could be me up
