Wavves

Talking in my sleep tonight
I just need to close my eyes
Eyes eyes eyes
Eyes eyes eyes

Dancing while the world is burning down
My head's on fire, feet can't touch the ground
I can't believe the shit they feed to us
They're lying to our face,

We're dancing while the world is burning down
My head's on fire, feet can't touch the ground
I can't believe the shit they say to us
They're lying to our face, face

It's true

Walking in my sleep tonight
I just need the exercise
Eyes eyes eyes
Eyes eyes eyes

Dancing while the world is burning down
My head's on fire, feet can't touch the ground
I can't believe the shit they feed to us
They're lying to our face

It's true
